

Approved: October 16, 2017

Minutes of Monday, August 21, 2017
REGULAR MEETING

The Union County Board of Commissioners met in a regular meeting on Monday, August 21, 2017, at 7:00 p.m. in the Commissioners' Board Room, First Floor, Union County Government Center, 500 North Main Street, Monroe, North Carolina. The following were

PRESENT: Chairman Frank H. Aikmus, Vice Chairman Richard B. Helms, Sr., Commissioner Jerry B. Simpson, Commissioner Lance Simpson, and Commissioner Stony D. Rushing

ABSENT: None

ALSO PRESENT: Cynthia A. Coto, County Manager; Lynn G. West, Clerk to the Board; Michelle Lancaster, Assistant County Manager; Michael James, Assistant to the County Manager; Jeff Crook, Executive Attorney; Jeff Yates, Executive Director, Administrative Services/CFO; Richard G. Long, Jr., County Attorney; members of the press and interested citizens

General Business:

Opening of Meeting

At approximately 7:00 p.m., Chairman Aikmus convened the regular meeting and welcomed everyone.

1. **Invocation** – Chairman Aikmus offered the invocation.
2. **Pledge of Allegiance** – Chairman Aikmus led the body and audience in reciting the Pledge of Allegiance to the flag of the United States of America.

Employee Recognition

3. **Employee Recognition** – On behalf of the Board of Commissioners and citizens of Union County, Chairman Aikmus recognized the following employees for their continued service at the following intervals: 5 years, 10 years, 15 years, 20 years, 25 years and 30 years of service by reading their name into the record:

SERVICE AWARD RECIPIENTS

Employee Name	Service Area/Division	Union County Service-5 YRS
Jeffrey Yates	Administrative Services	5 Years
Donald Moye	Emergency Services	5 Years
Ian Gross	Sheriff's Office	5 Years
Shana Edberg	Tax Administration	5 Years

Informal Comments

There were no informal comments.

Additions, Deletions, and/or Adoption of Agenda

Commissioner Rushing requested to add a closed session at the end of the meeting. Chairman Aikmus stated that item would be numbered Item #19 following Commissioners' Comments.

With there being no other additions or deletions, Commissioner Jerry Simpson moved adoption of the Agenda as amended. The motion passed unanimously.

Consent Agenda

Vice Chairman Helms moved approval of the items listed on the Consent Agenda. The motion passed unanimously.

Contracts and Purchase Orders Over \$100,000

4. **Approval of Metering System Feasibility Study** – Authorized the County Manager to approve a contract with MeterSys to conduct the Union County Automated Meter Reading/Advanced Metering Infrastructure Feasibility Study, pending legal review.

5. **Galvanized Water Line Replacements - FY17** – Accepted the low bidder, Classic City Mechanical, in the amount of \$647,850 and authorized award of the construction contract to Classic City Mechanical; authorized the County Manager to approve the construction agreement contingent upon legal review; and adopted Resolution Providing Notice of the Galvanized Water Line Replacements – FY17 Construction as recorded below.

A summary of the bids received is as follows:

BIDDER	TOTAL BASE BID
Classic City Mechanical, Inc.	\$647,850.00
Fuller & Company Construction, LLC	\$649,231.46
RDR Incorporated	\$692,832.00
Landsdown Earth & Pipe, Inc.	\$988,890.00

**RESOLUTION OF THE UNION COUNTY BOARD OF COMMISSIONERS PROVIDING NOTICE OF Galvanized
Water Line Replacements – FY17
PROJECT CONSTRUCTION**

WHEREAS, pursuant to G.S § 153A-457, a county shall notify property owners and adjacent property owners prior to commencement of any construction project by the county; and

WHEREAS, G.S. § 153A-457 provides that notice of a county construction project is deemed sufficient if notice of the construction project is given in any open meeting of the county prior to the commencement of the construction project; and

WHEREAS, the Union County Board of Commissioners desires to give notice of construction of Galvanized Water Line Replacements – FY17 prior to commencement of project construction as required by G.S. § 153A-457.

NOW, THEREFORE, BE IT RESOLVED BY THE Union County Board of Commissioners that:

1. Union County may commence construction of Galvanized Water Line Replacements – FY17 on property located along sections of Rushing Park, Woodland Lane, Allen Way, Armfield Drive, Carmel Church Road, Plyler Mill and Helms Shortcut Road after the award this date of the construction contract for the project.
2. This resolution and notice is adopted in accordance with the construction notice requirements of G.S. § 153A-457.

Adopted this the 21st day of August, 2017.

6. **July 2017 Motor Vehicle Tax Refunds** – Approved the July 2017 NCVS Motor Vehicle Tax Refund Report.

Motor Vehicle Fees	-
Total Taxes and Fees:	\$8,000.47

9. **Amendment to Extend Agreement with North Carolina Alliance of Public Health, Inc.** – Authorized the County Manager to approve the North Carolina Alliance of Public Health, Inc., contract renewal in the amount of \$750,000, pending legal review.

10. **2017-2018 Application for State Aid to Public Libraries** – Authorized the County Manager to sign the 2017-2018 Application for State Aid to Public Libraries.

11. **Proposal to Lease Property to State of North Carolina for Fairview Radio Tower** – Authorized the County Manager to approve a Proposal to Lease to the State of North Carolina for property located at 2318 NC Highway 218.

12. **FY 2018 Rural Operating Assistance Program Funds** – Approved submission of the FY 2018 Rural Operating Assistance Program Grant application, approved the Certified Statement for the FY 2018 Rural Operating Assistance Program application as recorded below, and authorized the County Manager to approve and submit all items related to submission of the application.

CERTIFIED STATEMENT

FY2018

RURAL OPERATING ASSISTANCE PROGRAM

County of Union

WHEREAS, the state-funded, formula-based Rural Operating Assistance Program (ROAP) administered by the North Carolina Department of Transportation, Public Transportation Division provides funding for the operating cost of passenger trips for counties within the state;

WHEREAS, the county uses the most recent transportation plans (i.e. CCP, CTIP, LCP) available and other public involvement strategies to learn about the transportation needs of agencies and individuals in the county before determining the sub-allocation of these ROAP funds;

WHEREAS, the county government or regional public transportation authorities created pursuant to Article 25 or Article 26 of Chapter 160A of the General Statutes (upon written agreement with the municipalities or counties served) are the only eligible recipients of Rural Operating Assistance Program funds which are allocated to the counties based on a formula as described in the Program Guidelines included in the ROAP State Management Plan. NCDOT will disburse the ROAP funds only to counties and eligible transportation authorities and not to any sub-recipients selected by the county;

WHEREAS, the county finance officer will be considered the county official accountable for the administration of the Rural Operating Assistance Program in the county, unless otherwise designated by the Board of County Commissioners;

WHEREAS, the passenger trips provided with ROAP funds must be accessible to individuals with disabilities and be provided without discrimination on the basis of national origin, creed, age, race or gender (FTA C 4702.1A, FTA C 4704.1, Americans with Disabilities Act 1990); and

WHEREAS, the period of performance for these funds will be July 1, 2017 to June 30, 2018 regardless of the date on which ROAP funds are disbursed to the county.

NOW, THEREFORE, by signing below, the duly authorized representatives of the County of Union North Carolina certify that the following statements are true and accurate:

- The county employed a documented methodology for sub-allocating ROAP funds that involved the participation of eligible agencies and citizens. Outreach efforts to include the participation of the elderly and individuals with disabilities, persons with limited English proficiency, minorities and low income persons in the county's sub-allocation decision have been documented.
- The county will advise any sub-recipients about the source of the ROAP funds, specific program requirements and restrictions, eligible program expenses and reporting requirements. The county will be responsible for invoicing any sub-recipients for unexpended ROAP funds as needed.
- The county will monitor ROAP funded services routinely to verify that ROAP funds are being spent on allowable activities and that the eligibility of service recipients is being properly documented. The county will maintain records of trips for at least five years that prove that an eligible citizen was provided an eligible transportation service on the billed date, by whatever conveyance at the specified cost.
- The county will be responsible for monitoring the safety, quality and cost of ROAP funded services and assures that any procurements by subrecipients for contracted services will follow state and federal guidelines.
- The county will conduct regular evaluations of ROAP funded passenger trips provided throughout the period of performance.
- The county will only use the ROAP funds to provide trips when other funding sources are not available for the same purpose or the other funding sources for the same purpose have been completely exhausted.
- The county assures that the required matching funds for the FY2018 ROAP can be generated from fares and/or provided from local funds.

- The county will notify the Mobility Development Specialist assigned to the county if any ROAP funded services are discontinued before the end of the period of performance due to the lack of funding. No additional ROAP funds will be available.
- The county will provide an accounting of trips and expenditures in quarterly milestone reports to NCDOT – Public Transportation Division or its designee. **Back-up documentation may be requested to support the quarterly reports or at an MDS site visit.**
- Any interest earned on the ROAP funds will be expended for eligible program uses as specified in the ROAP application. The County will include ROAP funds received and expended in its annual independent audit on the schedule of federal and state financial assistance. Funds passed through to other agencies will be identified as such.
- The county is applying for the following amounts of FY2018 Rural Operating Assistance Program funds:

State-Funded Rural Operating Assistance Program	Allocated	Requested
Elderly & Disabled Transportation Assistance Program (EDTAP)	<u>99,970</u>	<u>99,970</u>
Employment Transportation Assistance Program (EMPL)	<u>46,087</u>	<u>46,087</u>
Rural General Public Program (RGP)	<u>86,596</u>	<u>86,596</u>
TOTAL	<u>232,653</u>	<u>232,653</u>

WITNESS my hand and county seal, this 21st day of August, 2017

Minutes

13. **Minutes for Approval on Consent Agenda** – Approved minutes of May 1, 2017, Regular Meeting and minutes of June 27, 2017, Special Meeting.

Information Only – Included in the agenda package with no action requested was the following:

14. **Human Resources Monthly Report (July 2017)**

Old Business

15. **CZ-2017-004 3418 Highway 218 E.**

Chairman Aikmus recognized Brian Matthews, Executive Director of Growth Management, for his comments and to answer questions of the Board.

Commissioner Rushing shared that on Saturday following the last Board meeting, he visited with some of the neighbors who were opposed to this rezoning. He said he believes with the property being rezoned conditional there is a better understanding in the community of what uses can be located on the property and how it could be used with its existing zoning. He also said he believes the neighbors are better inclined to deal with the rezoning as long as it passes all the environmental, structural, and compaction tests.

Commissioner Rushing moved to approve the conditional rezoning petition (#CZ-2017-004) submitted by Jeffrey Hudspeth to rezone a portion of the property appearing on Tax Map #08-036-025B in the Goose Creek Township from RA-40 to B-4 CZ, to include the conditions as agreed to by the petitioner, as recorded below, and to adopt the applicable Consistency Statement as recorded below.

Conditions for CZ-2017-004

1. Development on the site must generally comply with the conceptual plan submitted by the applicant.
2. Use of the site is limited to Personal Vehicle Repair and Maintenance as specified by the applicant in the Rezoning Application.

TO APPROVE THE AMENDMENT

Pursuant to N.C.G.S. § 153A-341, the Union County Board of Commissioners does hereby find and determine that adoption of the proposed map amendment is inconsistent with the adopted Union County Comprehensive Plan, however, the adoption of the proposed map amendment is reasonable and in the public interest because (1) the proposed rezoning is located in an area where there is existing commercial development and the extension of the B-4 zoning district to the subject tract is appropriate; (2) the proposed development is small in scale and should be compatible with nearby uses; and (3) the development that is proposed should result in a minimal amount of traffic generation along Hwy 218 E.

Commissioner Jerry Simpson remarked that there had been quite a bit of discussion regarding the fact that the property beside the parcel being requested to be rezoned is already zoned business. He said he visited the property and some of the concerns that were raised about traffic on Highway 218 are certainly present. He said there has been quite a bit of study taking place recently concerning the traffic and that it is certainly something that needs attention.

The motion passed unanimously.

16. 911 Center Update

Cindy Coto, County Manager, stated there has been discussion in the past concerning the 911 center. She stated the purpose of this presentation is to offer information about the 911 center. She referenced meetings that were held with stakeholders and a plan that was done to address some issues.

Mrs. Coto explained that the center is a consolidated communications center thereby making it a single answering point for all of Union County. She noted this is somewhat unique in telecommunications as not a lot of counties have a single answering point that serves all of the municipalities as well as the county. She added that the center also supports Union County Public Schools and reminded the Board that a couple of years ago staff reached out to the school system with respect to its radio program. She also discussed the 636 hours of training that every telecommunicator goes through before being allowed to operate a console on their own.

Mrs. Coto stated that Chairman Aikmus, Vice Chairman Helms, Chief Gilliard of the Monroe Police Department, Sheriff Cathey, and she met with the stakeholders in June and August of this year. She said Brian Edwards, Michael Lutz, and Alisha Campbell from EMS also attended those meetings as well as there were representatives from 13 or 14 of the 17 volunteer fire departments present. She said issues discussed included the following: 1) consistency with respect to how the telecommunicators respond to calls, 2) communication between the center and those they serve such as Fire, Law Enforcement and EMS, and 3) some additional topics were addressed. She said the attendees developed an action plan and timelines for completion. She assured the Board that as a part of the action plan her commitment to the Board of Commissioners is to provide updates on plan progress on a quarterly basis moving forward.

Mrs. Coto mentioned there are three committees that exist on paper but have not met consistently for some time. The first committee she discussed is the Radio Communications Council. She shared that Chief Gilliard is the Chairman of the Council, and she has requested dates from him in order to set quarterly meetings for that Council. She said the dates of the meetings will be posted on the County's website as well as the Minutes from those meetings. She noted this Council makes policy recommendations to the County Manager which are then submitted to the Board of Commissioners for consideration.

The second committee is the Dispatch Steering Committee. She explained that this senior-management committee meets quarterly to review recommendations that it receives from the Dispatch Review Committee. She said the Dispatch Steering Committee makes recommendations to the Emergency Communications Division Director.

She discussed the third committee - Dispatch Review Committee. She said this mid-level management committee meets monthly and reports to the Dispatch Steering Committee. She explained that this committee reviews internal protocols and quality assurance and also implements continuing education to address any issues or concerns. She said the dates of the meetings will be posted on the County's website under Emergency Services as well as the Minutes from those meetings.

She stated those dates will be provided once they are established.

She said there have been comments that there is not a lot of cross communication between Law Enforcement, Fire, and EMS and stated the objective is to make sure that communication is taking place. She said she thought by placing all of the representatives on these committees they can work out those solution sets together. She stated it will improve communications between the center as well as among those individuals to whom it provides service.

Mrs. Coto said one of the issues that has been discussed is a lack of consistency so a number of things have been implemented. She stated an Operational Procedure Manual has been developed and all staff in the center are provided with bi-weekly updates. She said a bi-weekly newsletter is sent out that provides Quality Assurance tips and identifies inconsistencies between shifts. She said a Supervisor handbook is being prepared to ensure each shift is using the same methods, and the scheduled completion date for that handbook is September 20.

She said beginning on September 20 monthly meetings will be held for the Certified Training Officers to ensure training is consistent among all trainers.

She said in reviewing the center's staffing it was found that some shifts may have five staff members while other shifts may have seven staff members. She emphasized the need for a balance among the associated shifts so they all have the same resources. She said for that reason there will be a realignment of personnel which will be implemented by September 20.

She emphasized there will be a continued reinforcement of a culture grounded in ethics, performance, and accountability.

She said by November 30 an ASAP program will be installed and implemented to reduce the time spent by call takers receiving automatic alarm notifications. She explained that currently when an automatic alarm notification occurs, the company that handles the alarm calls into the communications center. She further explained that this program will send the call directly into the communications center where it will be displayed on the screen and dispatchers can handle the call.

Mrs. Coto stated a 24-hour test period will be run using Cabarrus as a communications center with Union County's center serving as a back-up. She explained this would be two 12-hour shifts and will test the Cabarrus' center to make sure it is fully operational. She said they will review schedules to ensure Union County's communications center is staffed at the time of the testing as well as Cabarrus' center. She stated she will notify the Board regarding the scheduled testing date as well as share the results of the testing. She stressed the desire to have the Cabarrus back-up center fully operational.

She reported that the communications center has automated voice dispatching for Emergency Medical Services (EMS) and Fire which provides a quicker process for handling calls. She said currently a call taker would take the call, receive the information from the caller, and then the call taker would dispatch the unit. She explained that with the automated voice dispatching the call taker takes the information, places the information into the system, and the software dispatches it to EMS, Fire, etc. She remarked that the calls get handled much more

timely than they are able to be handled with the human factor. She said communications is working with Charlotte Radio and Motorola and stated as soon as a timeline has been established, she will provide that information to the Board.

She referenced the demand monitoring system for EMS and reminded the Board that this was discussed during the budget process. She said staff is developing a Request for Proposals and will go through a selection process for a potential vendor. She stated that due to the cost of the system, unless the bids received are really good bids, the proposal will be brought before the Board for approval. She said the goal is to have the system installed and all training completed by January 31.

She stated that supervisors are taking calls currently on an active basis and are unable to spend time supervising staff to the degree that they should. She said staff is in contract negotiations for a consultant, and once the contract is signed, a time table will be developed. She stated that in conjunction with the 911 expansion, supervisors in the communications center will be placed in a situation more to monitor calls rather than to handle calls. She said this will help ensure consistency and communications among the telecommunicators who are actually handling the calls. She mentioned this is part of the supervisors' job responsibilities, but it is difficult when they have to act as telecommunicators.

She said some additional positions were approved in the budget, and the staffing plan is being updated. She stated an additional Law Enforcement dispatcher will be added. She explained that they have heard from Law Enforcement that it presents some challenges for the the Sheriff's Office and Monroe Police Department to be on a single channel. She said an EMS dispatcher as well as a Law Enforcement dispatcher will work in tandem with Fire Services and the volunteer fire departments.

Mrs. Coto conveyed that during discussions with the fire departments, some concerns were raised regarding a channel utilization study. She said the fire departments believe the County might be reaching a point of capacity so an overview of the utilization was done. She reported the system currently operates at about 20 percent capacity but when utilization reaches 40-50 percent, a study would then be appropriate.

She said another concern voiced during budget discussions was the need to evaluate the Viper System. She said on August 15 an initial meeting was held involving representatives from EMS, Fire, Law Enforcement, and County staff. She noted that additional meetings are being scheduled. She said once the Viper System has been evaluated, staff will bring recommendations to the Board of Commissioners from that group.

She noted it was discussed that when there is an active scene that Law Enforcement is working, EMS and/or Fire needs to be staged appropriately until the scene is secure. She stated the protocol and terminology have been amended to address the concern.

She referenced the CAD System and stated a lot of information has been put into that system. She pointed out if first responders are rushing to a scene, it may be difficult to read all of the information provided in the CAD notes. She said this topic has been referred to the Dispatch Review Committee, which includes EMS, Fire and Law Enforcement, to develop a solution that works for all three agencies.

Chairman Aikmus thanked Mrs. Coto for her report.

Vice Chairman Helms said he had the opportunity to attend the North Carolina Association of County Commissioners' annual conference, and some excellent information was presented during that conference. He said there was a presentation by the State 911 Board and its Executive Director. He said audits of emergency services in various counties were discussed, and the person who handles the audits, who is from Iredell County, offered to review Union County's emergency services and make pertinent recommendations without a fee. Vice Chairman Helms said that individual could make potential recommendations for Union County at no cost and suggested that staff might want to exercise that offer before signing a contract. He mentioned Union County may be farther ahead than it thinks, but he thought having someone of that caliber to give an oversight of the County's emergency services might be useful.

Mrs. Coto said Vice Chairman Helms provided that information to Mrs. Michelle Lancaster, Assistant County Manager, who has tried to contact that person but was unable to do so. She stated Mrs. Lancaster left a voice message for that individual. Mrs. Coto said staff is going to have discussions with that person.

Commissioner Rushing inquired the length of the contract for the Viper System. Mrs. Coto responded that Union County is required to provide a two-year notice on that particular contract. She indicated she thought the contract is with Charlotte Radio.

Curtis Teague, Executive Director of Emergency Services, stated he believes the two-year period is from the time the two-year notice is given but said he thinks the contract is far enough along that the two-year notice can be given at any point. Mrs. Coto assured the Board that she would get an answer.

Commissioner Rushing stated he believes there was an incident that happened around the JAARS Center, and the Sheriff said that is one of the "donut holes" in the current system that would be resolved with the Viper System.

Mrs. Coto shared that there is a coverage issue regarding a water tank on Highway 218, which is an item on the Agenda. She said the Highway Patrol has asked the County to agree to enter into a lease, which action was taken this evening. She said staff has talked with the Highway Patrol about the County moving its equipment from Midland to the tower that the Highway Patrol is going to construct. She stated this move would address some of the coverage issues in that part of Union County.

Commissioner Rushing said the Highway Patrol utilizes the Viper System, and he believes the cost is approximately \$700,000 a year. He asked if an agency opts out of that contract, because he believes there are other counties involved in the contract, would the County's amount increase. Mrs. Coto responded the group that will be meeting will study the viability of the system with respect to Law Enforcement, EMS, and Fire. She said if the group determines there are any cost savings, that information will be contained in its evaluation and recommendation.

Commissioner Rushing stated he has received calls from several citizens recently about making sure as part of the training that no one in Communications is giving out legal advice. Mrs. Coto assured Commissioner Rushing that both she and Mr. Teague would reinforce those instructions.

Commissioner Lance Simpson said one of the items Mrs. Coto pointed out was the communications issue. He said the groups that are listed meet quarterly and monthly but asked about the day-to-day communications and leadership to resolve some of those concerns.

Mrs. Coto responded that currently the County is recruiting for a Communications Division Director. She discussed that for a position such as that representatives from EMS, Law Enforcement, and Fire are invited to participate in the interviews so they are a part of the selection process. She said she believes communication really starts with that individual. She said the Operations Manager is relatively new, so the Sheriff invited her to meet with all of his folks, and the feedback she received was that the meeting went well in opening the lines of communication. She added they have monthly meetings with some of the center's users such as EMS so there are other meetings taking place specific to some areas of concern.

Commissioner Lance Simpson said the Operations Manager is stepping up but asked how that gap is being filled. He also asked Mrs. Coto who is leading these tasks. Mrs. Coto responded that at this point Mr. Teague is responsible for completing all of these tasks, whether he does it directly or by supervising staff. She said Communications has told all of its users if they have a question or concern with regard to the center or the operational concerns of the center, they are to call the Operations Manager, Ms. Furr. She said all other items should be brought to Mr. Teague. She said it is Mr. Teague's responsibility, whether he has handed it off to the Operations Manager or to the Training Coordinator or someone else to implement, and he is the one responsible that they meet these deadlines.

New Business

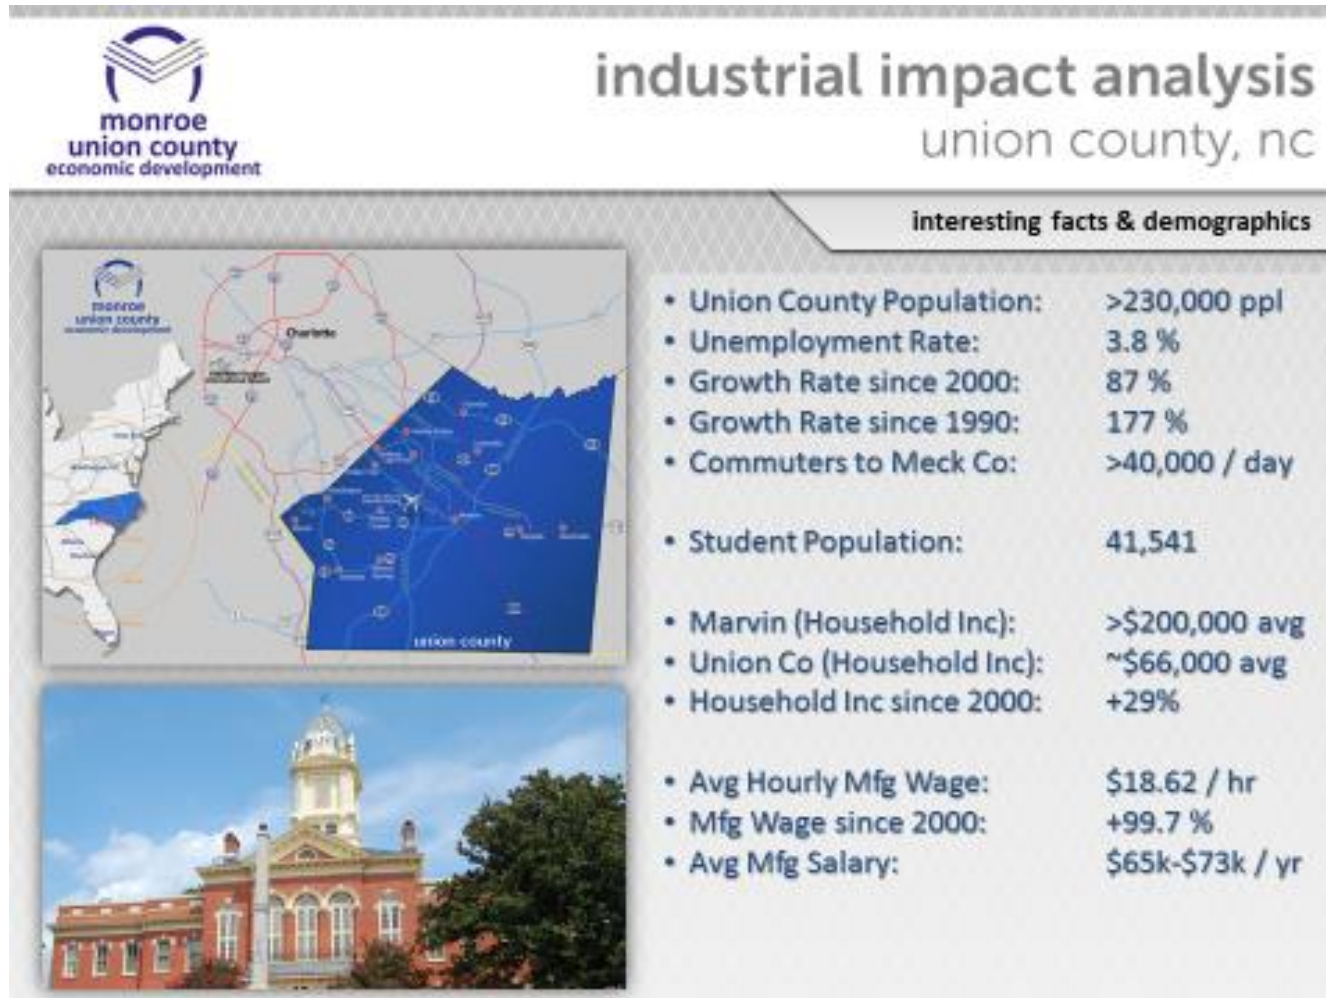

17. Presentation of the Findings in the Wingate University Study – Union County's Manufacturing Industry Economic Impact in 2015

Chairman Aikmus recognized Mr. Chris Platé, Executive Director of Monroe-Union County Economic Development, to present the findings on the Wingate University study.

Mr. Platé stated it is with great pride that he brings this study before the Board. He said there has been a lot of work in the making with Wingate University as well as County staff and the Economic Development staff with regards to this study.

He reviewed Union County's demographics. He noted that the 3.8 percent unemployment rate is one of the lowest percentages in the region. He remarked that there is a diversity in the County that is equivalent to a state. He said, for example, Marvin's current annual household

income is well over \$200,000 but Union County's current average annual household income is \$66,000. He said the average household income has increased 29 percent since 2000, and he believes the manufacturing sector has a lot to do with that increase. He said the current average hourly manufacturing wage is \$18.62/hour, up from \$9-\$11/hour in 2000, which represents an increase of 100 percent.

Mr. Platé said when looking at an economy that is thriving, it is really balance that defines it. He reported that from an economic development standpoint the textbook ratio is 60 percent residential to 40 percent manufacturing/commercial/industrial. He remarked that Union County does not have that 60/40 ratio but has a unique situation. He stated the residents are vital to the County in that they provide a strong workforce and healthy retail environment. He said the residents also support the education network from the school system to South Piedmont Community College to Wingate University. He stated it is the balanced growth that has to occur and that growth in that high revenue tax base is essential but can be difficult in a county with as many municipalities as are in Union County.

industrial impact analysis

union county, nc

value proposition: manufacturing

- Local economies thrive in the long-term due to: **BALANCE**
- Textbook ratio of Residential to Commercial is 60% to 40% respectively
- Residential investment is key to:
 - strong workforce
 - healthy retail development
 - supportable education network
- Balanced development in high revenue tax base is essential – this can be difficult with 15 government units in Union County's territory

Mr. Platé stated residential development demands a lot more services and is ongoing. He noted it is cheap to build a park, but the park has to be maintained. He said everything the residents need requires constant funding whether it is a library, a park, or public safety. He said the cost to serve that land use is higher than all other uses. He reiterated that balance is critical when the communities are doing their planning and noted that currently many of the municipalities are going through their Comprehensive Land Use Plans. He said without balance either taxes will increase or services will have to be cut to maintain a viable tax rate.

industrial impact analysis

union county, nc

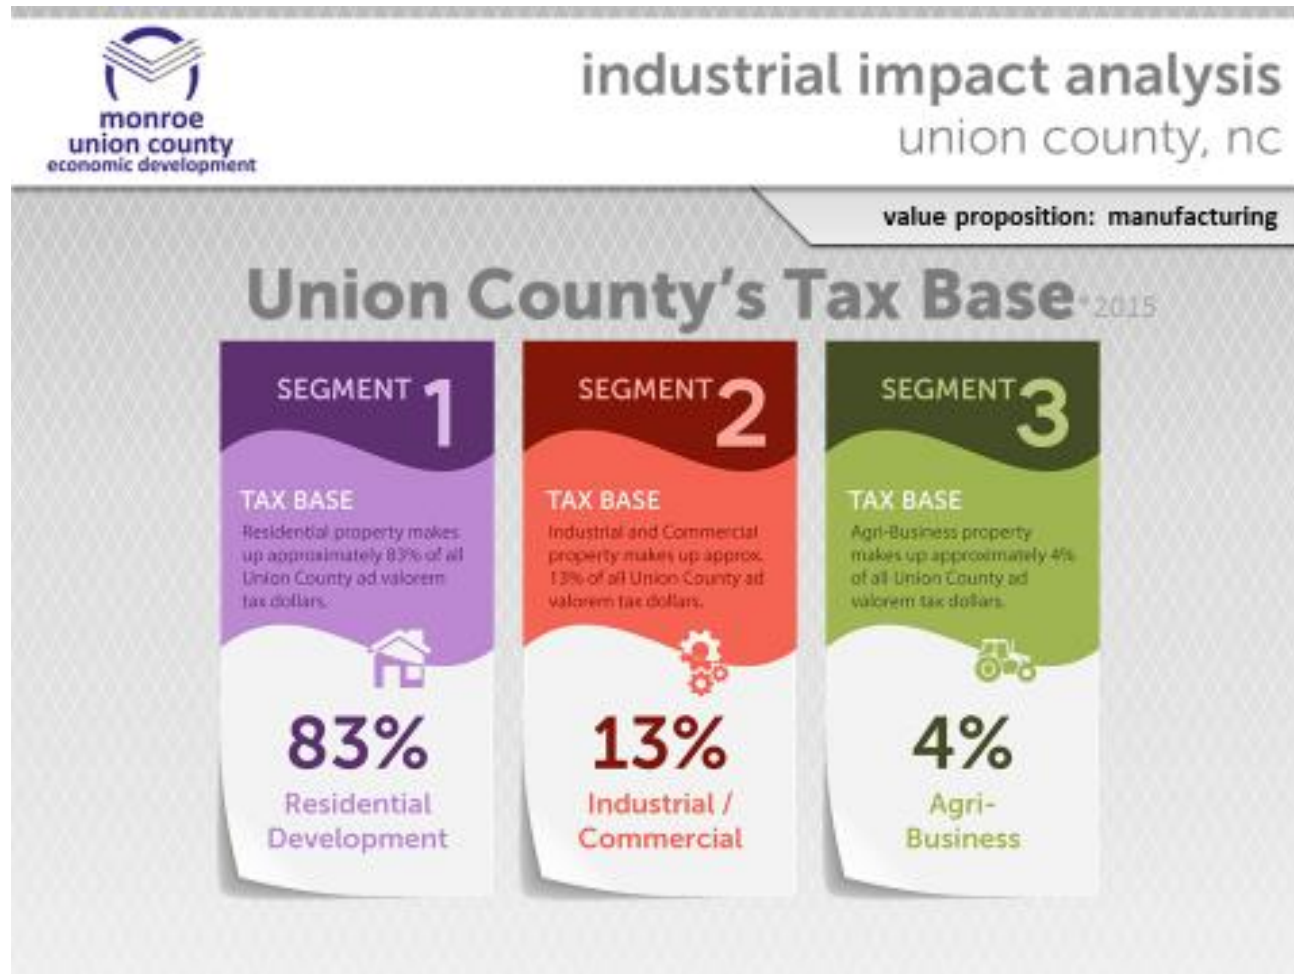

value proposition: manufacturing

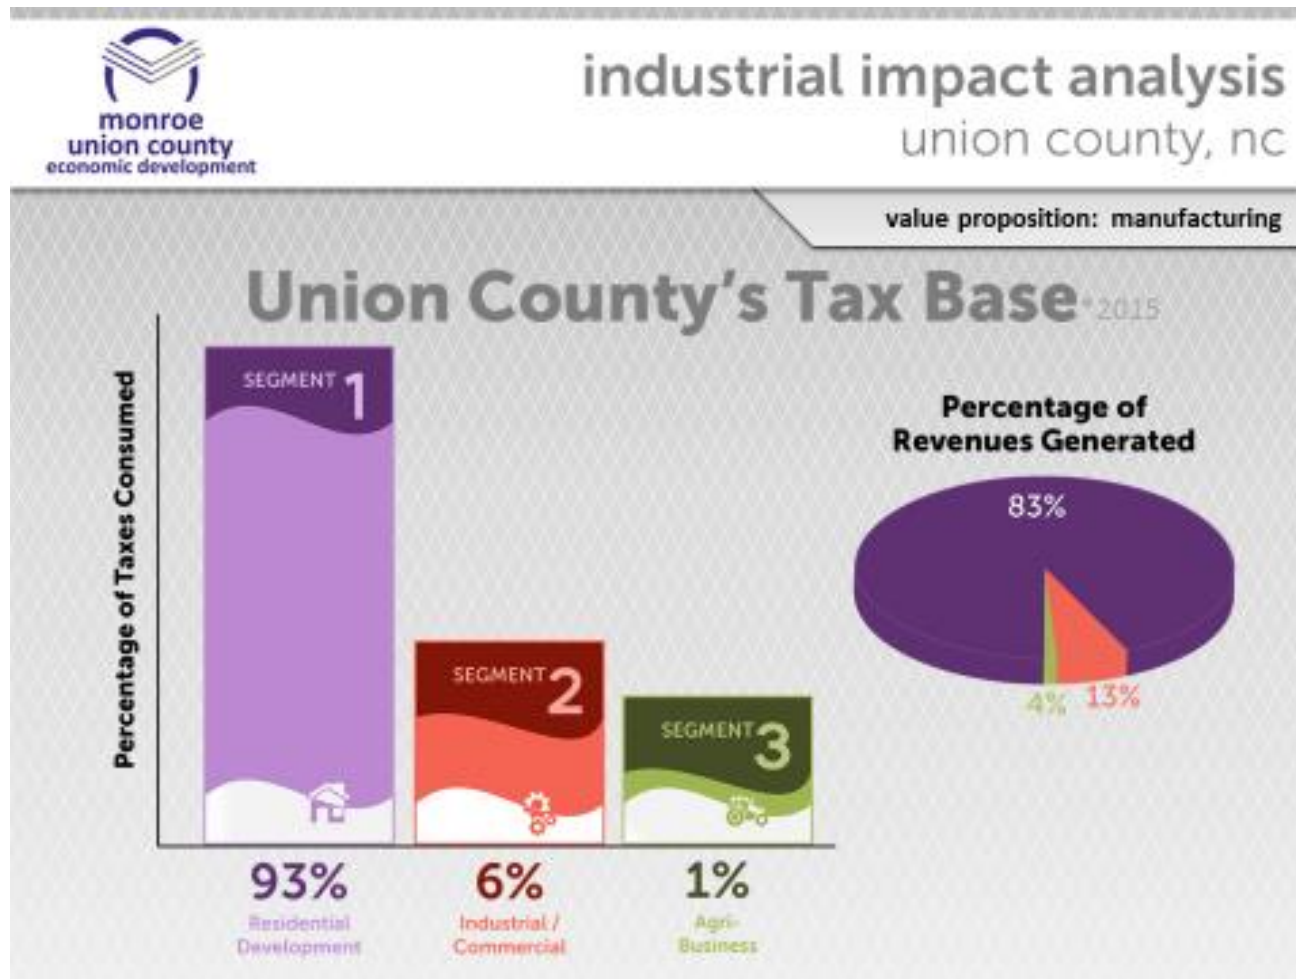

- Residential development demands services with on-going costs and maintenance
- Residential development has an extremely high "Cost to Serve" vs. other land uses
- BALANCE is critical in community planning
- Without BALANCE in the tax base
 - taxes must increase
 - services begin to be cut
 - all citizens suffer
 - most people with the means will leave
 - children may not return after going away
- Without BALANCE things can change quickly

Mr. Platé reported that in 2016 the EDC Board of Advisors commissioned Wingate University to complete an impact analysis of manufacturing. He said much of this resulted from what the residential and manufacturing do for the County. He stated the findings of the analysis were not surprising but the extremes were surprising.

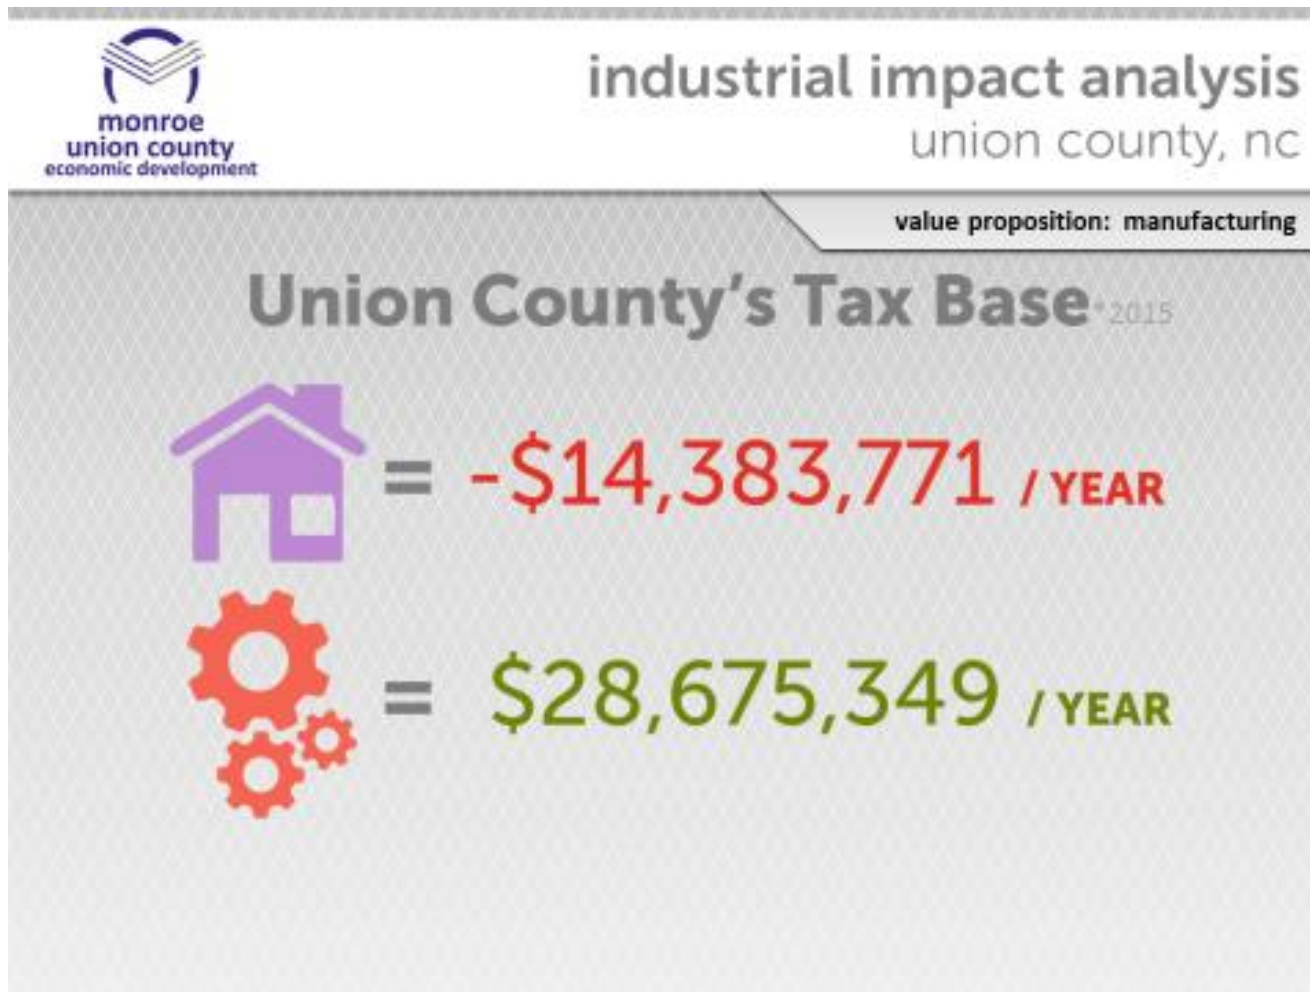

He showed the slide below which depicted Union County in FY 2015 and pointed out the tax base was not close to the 60/40 ratio.

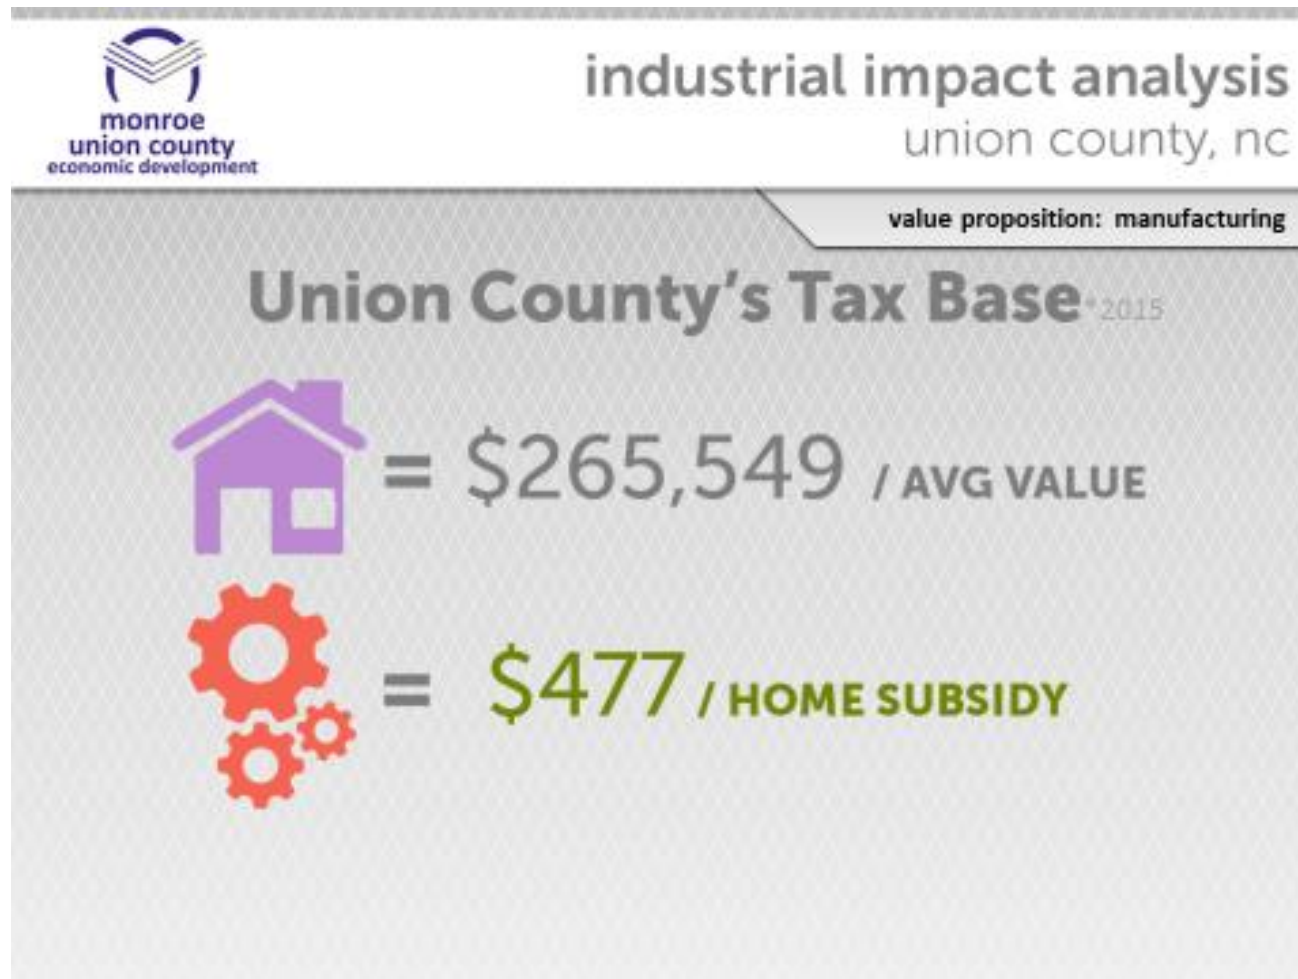

Mr. Platé discussed the slide below which indicates the percentage of revenues generated in Union County in FY 2015 and noted that residential consumed 93 percent of the taxes consumed. He explained that is normal and that residential is supposed to consume more than it generates.

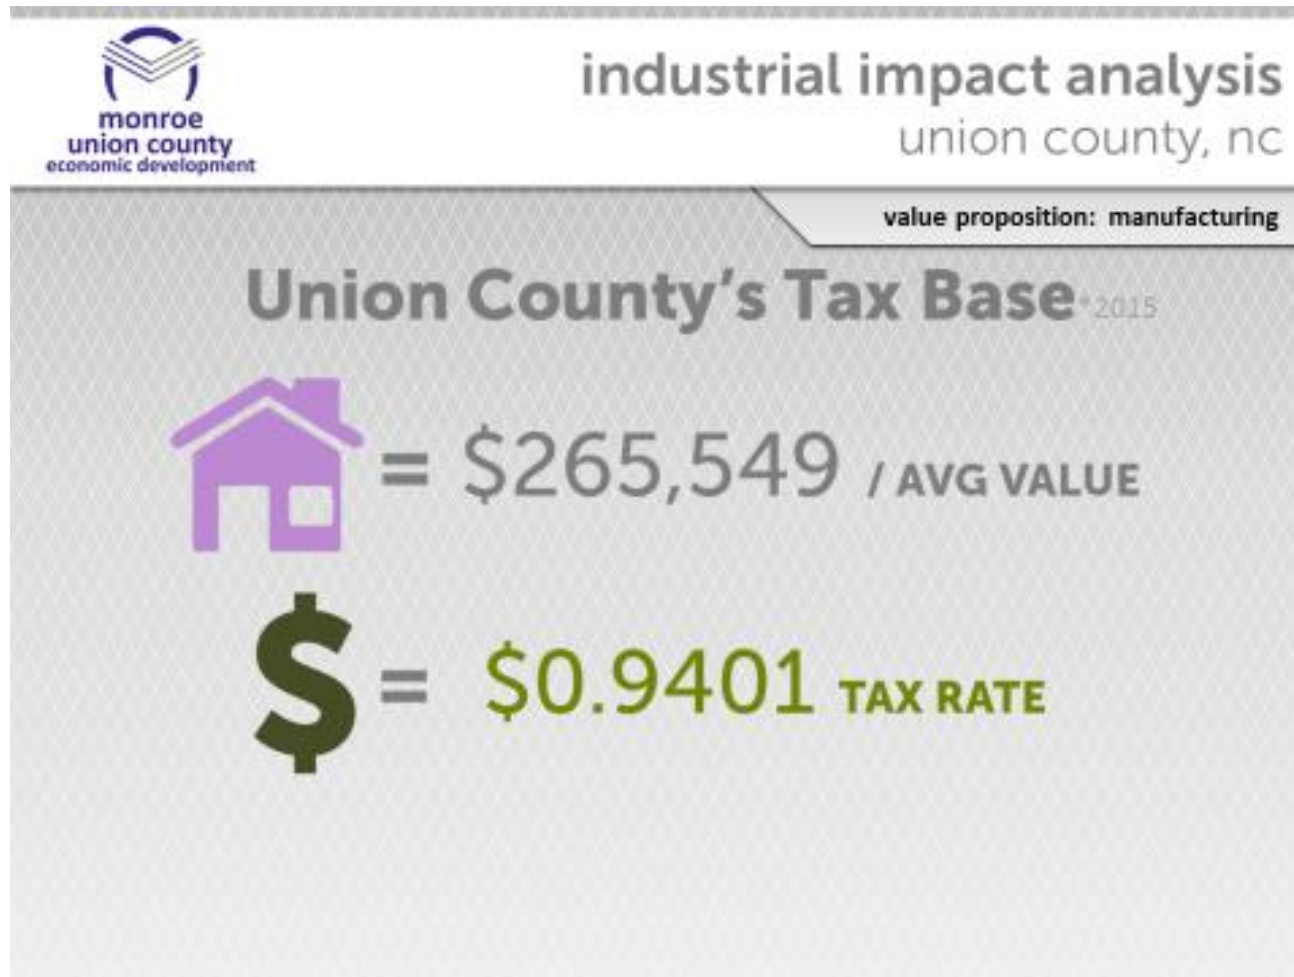

Mr. Platé explained that the residential component of Union County's tax base costs the County \$14.4 million a year over what it generates. He said that 13 percent in manufacturing/industrial generated an additional \$28.7 million to the County.

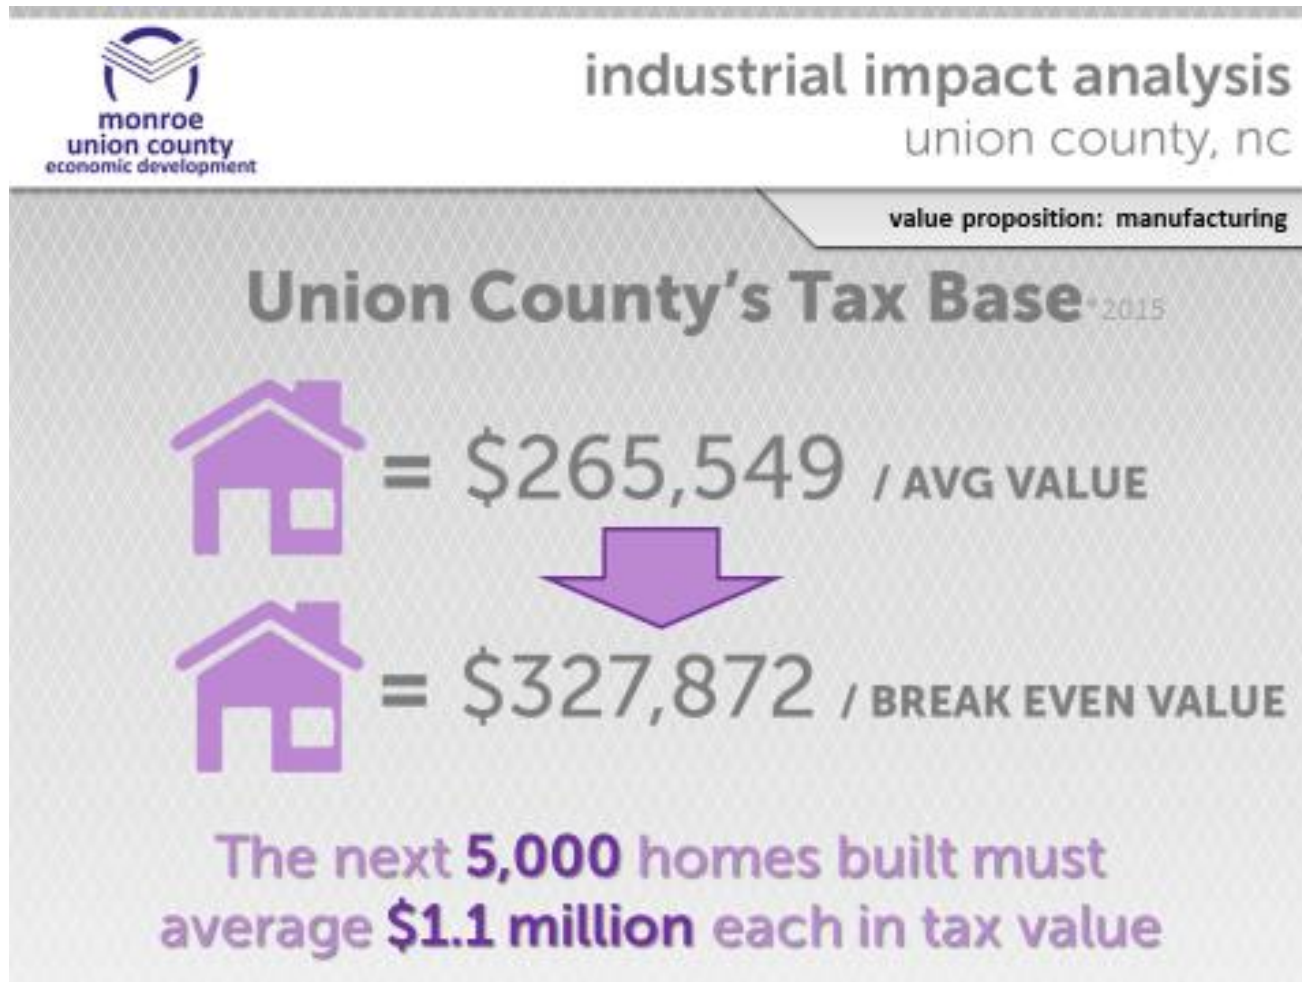

Mr. Platé reported that the average home in Union County at the time the study was completed was \$265,549, which has to be subsidized by the manufacturing base. He ascertained that manufacturing subsidizes every home in Union County by roughly \$500/year.

Mr. Platé stated that translates into a tax rate in FY 2015-2016 of about 76 cents and noted that is what the tax rate would have to be for residential to cover its own cost. He explained that is why additional commercial/industrial/retail tax base is needed. He said this shows there has to be a balance and, to provide the services the County wants to offer citizens, it has to offset those costs which is what the commercial tax base does.

Mr. Platé stated in 2015 the break even value was \$327,800 per home. He said the surprise is to reach that amount, due to the number of units in the County, the next 5,000 homes built have to average \$1.1 million each. He remarked that was not going to happen, of course, but explained that is why the County needs to continually recruit and add commercial base. He said what resulted from the study is the County needs one acre of commercial/industrial for every two acres of residential going forward to maintain and to offset that loss.

Mr. Platé stated that municipalities are not exempt from this situation in that a county faces most of its costs from a school system, but the towns bear the costs in public safety. He indicated he did a cost-to-serve analysis for one of the towns and found that the average home was \$300,000 yet the average home being built was roughly \$400,000. He said from the cost-to-serve and the amount of revenue generated in these zones, there was a 383 percent higher income coming in from commercial/industrial. He said this translates to that town needing one acre of commercial/industrial for every 5.3 homes to maintain.

industrial impact analysis

union county, nc

value proposition: manufacturing

Acres / Acres

- Municipalities are not exempt from the differential from their residential tax base
- Our office conducted a "Cost to Serve" analysis for one of our towns:
 - Avg Home Value: \$295,181
 - Avg Home Built: \$400,000
 - Ind/Comm Value: \$1m per acre
- After costs to serve, the industry zoning net "profit" is 383% more than residential zoning
- 5.3 homes = 1 Ind / Comm acre
- 2.7 residential acres = 1 Ind / Comm acre

Mr. Platé said the issue that Union County currently has is that it has been very successful at recruiting and has consumed most of its products so there is very little product for companies to expand.

He said from 2013-2016 the County generated roughly \$370 million and almost 1,500 jobs. He said if incomes and incentives are taken out, that has a return on investment of 273 percent. He said when looking at the multipliers that come from manufacturing that show up in the study, the return on investment from this small amount of economic activity is around 508 percent. He said the return on investment in manufacturing is much higher than any other investment that any government can do.

He stated one of the matters he is trying to work with the municipalities on is to understand that commercial/industrial has the highest value per acre of any zone. He shared that when a town has an area with a consignment shop, a daycare, and manufacturing all on the same street, it will not be successful in recruiting companies to build in that environment. He indicated the companies want similar uses near them. He stated that is why these zones need protecting.

He asserted that commercial base is the foundation on which everything else in the community is built and stressed that great deliberation should be given to planning efforts going forward to find new commercial and industrial land.

industrial impact analysis union county, nc

value proposition: manufacturing

- Investment & Job Creation
 2013-2016 \$368.54 million
 1,491 jobs
- Multiplier applied ROI: ~508%
- The single highest valued land use in any community is Industrial / Commercial
- It is not a dumping ground for various uses
- The commercial base is rock the foundation on which a community is built
- Give great deliberation to planning for and setting aside new industrial and commercial property *(and needed utilities to serve)*

Mr. Platé indicated that Union County is far better than most communities and, with a \$265,000 average home, it can withstand the 83 percent. He said Union County is not the textbook 60/40 model but that is okay because the County has such a higher value of residential. He said the County is offsetting itself with that value but stressed that the County cannot take that for granted; it must continue to recruit because it is all about balance and supporting the citizens of Union County the best way possible.

Chairman Aikmus expressed appreciation to Mr. Platé for his presentation.

Commissioner Rushing stated the County has limited utility resources and asked Mr. Platé if he, as an economic development expert, would prefer the County reserve more of its utility resources for commercial/industrial projects.

Mr. Platé said without a lot of information behind it, he would hate to say, yes. He stated given a hypothetical – if there were a capacity cap, he thinks the Board could look at reserving utilities based on certain criteria. He added that he does not believe the County wants to shut off any development if it can prevent it.

Commissioner Rushing stated the information that the County received from the school system regarding the McKibben study is that the County will be losing 4,000-5,000 children in the next 10 years from the public-school system. He asked how having less children in 10 years affects the study.

Mr. Platé responded the County has brick and mortar that has been built which has to be paid for, so there are a lot of expenses that exist. He said one of the reasons he believes the County is slowing is due to the wealth along the border. He said he thinks the bypass may create a pierce through that where people can start enjoying Union County and not have to drive such a long distance, and it will be easier to get in and out of Mecklenburg County.

Commissioner Rushing stated Marshville and Wingate would both have a great role in this by producing jobs and manufacturing not only for the County's tax base, but also for Anson County as its citizens can travel into Union County and work those jobs yet not increase the residential numbers in Union County.

Mr. Platé said currently 61 percent of the County's manufacturing employees live in Union County. He stated the labor pool is immense and extends into Stanly County. He further stated that people who want to live in an environment such as Pageland will come into Union County. He said there are people who drive 30-45 minutes to work in Union County while maintaining the quality of life they want to have in another county of residence.

18. Appointment of Tax Administrator

Cindy Coto, County Manager, asked that Vann Harrell come to the podium.

Mrs. Coto addressed the Board and stated that John Petoskey, former Tax Administrator for Union County, retired on May 31. She explained that the Tax Administrator position is a consolidation of the two statutory offices of Tax Collector and Tax Assessor. She stated she is presenting Mr. Harrell to the Board for appointment to the position of Tax Administrator.

She reported Mr. Harrell presently serves as Union County's Revenue Division Director and, pursuant to General Statutes, the Manager can make the recommendation, but the Board has to appoint the position. She said Mr. Harrell has 17 years tax experience which includes 13 years with Union County, one year with Martin County, and three years with the Department of Revenue. She noted Mr. Harrell is also the past president of the Central Piedmont Tax Association and currently serves as a member of the State-Wide Review Board for the Selection and Maintenance of the NCVTS Software Program that consolidated over 100 different software programs into one multi-jurisdictional system. She stated that Mr. Harrell has served on the North Carolina Association of County Commissioners' Tax and Finance and Intergovernmental Relations Steering Committees for the last 13 years. She further stated that Mr. Harrell has his Bachelor and Masters Degrees in Public Administration, has been a Certified Deputy Tax Collector since 2006, and has met the requirements to be a North Carolina Department of Revenue Certified Assessor, which is a requirement to be named as a Tax Administrator.

Mrs. Coto stated that the action requested is to appoint Mr. Harrell as Tax Administrator, which is a combination of Tax Collector and Tax Assessor, for the unexpired term of John Petoskey ending June 3, 2019, at an annual compensation of \$105,000.

Chairman Aikmus moved to appoint Vann Harrell as Tax Administrator to fill the unexpired term ending June 3, 2019, at an annual compensation of \$105,000. The motion passed unanimously.

Chairman Aikmus stated that he looks forward to Mr. Harrell's continued service to the County.

Mr. Harrell expressed appreciation to the Manager and the Board for their support and for the opportunity to continue in this role. He said they have accomplished a lot of good things, and he looks forward to continuing with those successes.

County Manager's Comments

The County Manager had no closing comments.

Commissioner's Comments

The Commissioners had no closing comments.

At approximately 7:54 p.m., Commissioner Rushing moved that the Board go into closed session): 1) to consult with an attorney in order to preserve the attorney-client privilege in accordance with G.S. 143-318.11(a)(3); 2) to establish, or to instruct the public body's staff or negotiating agents concerning the position to be taken by or on behalf of the public body in negotiating the amount of compensation and other material terms of an employment contract or proposed employment contract pursuant to G.S.143-318.11(a)(5); and 3) to consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of an individual public officer or employee or prospective public officer or employee pursuant to G.S. 143-318.11(a)(6). The motion passed unanimously.

The Commissioners moved to the Conference Room located on the first floor of the Union County Government Center where the Chairman convened the closed session.

At the conclusion of the closed session discussion, at approximately 9:15 p.m., Chairman Aikmus moved that the Board go out of closed session. The motion passed unanimously.

With there being no further comments or discussion, at approximately 9:16 p.m., Chairman Aikmus moved to adjourn the regular meeting. The motion passed unanimously.
